

Muchas Manos de San Diego, EGA

Invites you to attend a
Felting Workshop

Taught by Ana Garcia

Saturday, June 22, 2019

Spend the day learning how to create magic with wool roving, soap and water. This fun and informative workshop is a great way to introduce you to the hands-on art of wet felting. Learn how to layout the roving and using warm soapy water to magically create a beautiful piece of fabric. The resulting fabric can be strong and textural or filmy and ethereal. Wool created with this technique makes a wonderful foundation for thread embroidery, bead embroidery, and needle felting.

Learn all you need to get started exploring this creative art. To inspire you, your kit will include: Wool and wool/silk roving, felting and beading needles, and an assortment of vintage and contemporary beads and sequins, along with detailed instructions. This will allow you to create your own, one of a kind, purse or pouch.

Register by sending a check payable to Muchas Manos along with the registration form
